# 2025 Beginner Study Group

Your Path to Mastering Korean Starts Here

## Background

### KOGO Study Group

As education practitioners and students ourselves, we recognized that the main goal for us, as students, is to maintain and upgrade our Korean skills, expose ourselves to all Korean language learning aspects (writing, speaking, listening, reading, grammar), commit to practicing outside the class, and understanding real situations in various contexts, and the lack of trusted discussion platform. With this in mind, KOGO Studio team tried to create a study group within our team, and setting clear goals and points we wanted to achieve, planning a learning schedule along with the tasks to test out. With multiple times of discussions, failed trials and successful trials, here we have seen significant improvement in our skills through certain approaches.

And finally, in 2025, we are excited to offer this Study Group to everyone learning Korean and anyone who wants to learn more comprehensively. We are ready to provide a platform for growth, with our team, and with our dedicated teachers 😊

# Programs & Features

### Thematic Community Classes with Teachers

**Thematic Community Class** in KOGO Study Group is a supplementary class, which will be held LIVE via Zoom and focus on group discussions led by certified and professional teachers. These thematic classes, which include **Grammar Exercises, Vocabulary Improvement, Speaking Practice, Cultural Class and Live Conversations with Native Teachers, are designed to enhance students' Korean language skills.**

It's important to note that the thematic classes in the KOGO Study Group are not standalone. Our academic team has formulated these classes into a comprehensive supplementary curriculum to fill the gaps not covered in detail and provide a deeper understanding beyond the contents offered in the main courses. Therefore, this program does not eliminate the need to take the main classes.

Practicing in thematic classes is designed to address common challenges faced by Korean language learners, with topics of interest such as:

- Common mistakes in Korean grammar usage
- Group challenge with teacher's accompaniment
- Group discussion and presentation
- In-depth discussions on specific topics with related vocabulary and expressions
- Real Korean conversations on particular topics, along with direct practice
- Get to know Korean culture and real situation
- TOPIK questions discussions, and much more.

### Class Recording Access

Students in the study group **will have the access** to some community class / info sessions recordings **for up to two weeks** after they are uploaded (viewable online, no download option), while practice and conversation classes will not be recorded.
